

Yangming Apps Static HTML Homepage Plan

1. Website Goal

Build a clean, English-first static homepage for **Yangming Apps**.

The homepage should combine:

1. Personal brand of Yangming
2. Five iOS / macOS apps
3. App Store download conversion
4. Developer credibility
5. Simple SEO foundation

Main positioning:

Yangming Apps — Independent iOS and Mac apps for cleanup, focus, screenshots, and life journaling.

Chinese meaning:

Yangming Apps 是阳明的独立开发者主页，展示 iOS 和 Mac 工具类 App，包括清理、专注、长截图和人生记录。

2. Recommended Tech Scope

Use a pure static site for the first version.

File structure

```
yangming-homepage/  
├── index.html  
├── style.css  
├── assets/  
│   ├── icons/  
│   │   ├── focuslock.png  
│   │   ├── deepcleanup-ios.png  
│   │   ├── deepcleanup-mac.png  
│   │   ├── longshot.png  
│   │   └── lifelog.png  
│   └── screenshots/  
│       ├── focuslock-hero.png  
│       ├── deepcleanup-ios-hero.png  
│       ├── deepcleanup-mac-hero.png  
│       ├── longshot-hero.png  
│       └── lifelog-hero.png
```

```
| | | avatar/
| | | | yangming.jpg
| | | og/
| | | | homepage-og.png
| | privacy.html
| | terms.html
| | README.md
```

First version can only include:

```
index.html
style.css
assets/
```

Privacy and Terms pages can be added later.

3. Homepage Language Strategy

Default language:

```
English
```

Use Chinese only as small support text in the About section or footer.

Do not make the first version fully bilingual. The homepage should look like an international App Store landing page.

Recommended language style:

- Short English sentences
 - Apple-style clean copy
 - No long paragraphs
 - No heavy technical explanation
 - Product cards should be easy to scan
-

4. Brand Name

Use:

```
Yangming Apps
```

Alternative:

Yangming Studio

My recommendation:

Yangming Apps

Reason: it is clearer for App Store product display and SEO.

5. Core Slogan

Main slogan:

Clean. Focus. Capture. Remember.

Sub slogan:

Independent iOS and Mac apps built by Yangming for a cleaner, more focused digital life.

Chinese meaning:

清理、专注、捕捉、记录。由阳明独立开发的 iOS 与 Mac 应用。

6. Full Page Structure

Section 1: Header

Layout

Left:

Yangming Apps

Right navigation:

Apps
About
Contact

Optional:

GitHub
Resume

Header CTA

Use a small button:

View Apps

Section 2: Hero

Purpose

Make users immediately understand:

- This is Yangming's personal app studio
- There are five apps
- They are for iOS and Mac
- They solve practical daily problems

Hero copy

Clean. Focus. Capture. Remember.

Independent iOS and Mac apps built by Yangming for photo cleanup, app blocking, screenshot stitching, Mac cleaning, and life journaling.

CTA buttons

Primary:

Explore Apps

Secondary:

About Yangming

Hero visual

Show five app icons in a floating grid:

1. FocusLock
2. DeepCleanup: Photo Cleaner
3. DeepCleanup macOS
4. LongShot
5. LifeLog

Visual style:

- Large rounded cards
 - Soft shadow
 - Light background
 - App icons floating like Apple product cards
-

7. App Data

App 1: FocusLock: App Blocker

App Store link

<https://apps.apple.com/us/app/focuslock-app-blocker/id6781309683>

Platform

iOS

Card title

FocusLock

Full name

FocusLock: App Blocker

Category

Focus

One-line description

Block distracting apps and build stronger focus habits.

Feature tags

App Blocker
Focus Sessions
Screen Time
Productivity

CTA

View on the App Store

Homepage role

FocusLock should be the second or third product card. It is easy to understand and has a strong productivity angle.

App 2: DeepCleanup: Photo Cleaner

App Store link

<https://apps.apple.com/us/app/deepcleanup-photo-cleaner/id6777354576>

Platform

iOS

Card title

DeepCleanup

Full name

DeepCleanup: Photo Cleaner

Category

Clean

One-line description

Clean duplicate photos, screenshots, and large videos in minutes.

Feature tags

Duplicate Photos
Screenshots
Large Videos
iPhone Storage

CTA

View on the App Store

Homepage role

This should be the **main featured app**.

Reason:

- User pain is very clear
- Good for App Store conversion
- Good for Apple Ads
- Good for SEO
- Easy to explain visually

Recommended featured headline:

Free up iPhone storage in minutes.

App 3: DeepCleanup for Mac

App Store link

<https://apps.apple.com/us/app/deepcleanup/id6777946333?mt=12>

Platform

macOS

Card title

DeepCleanup for Mac

Full name

DeepCleanup

Category

Clean

One-line description

Reclaim Mac storage by cleaning clutter, cache, and large files.

Feature tags

Mac Cleaner
Cache Cleanup
Large Files
Storage Management

CTA

View on the Mac App Store

Homepage role

Display next to the iOS DeepCleanup app to create a product family:

DeepCleanup works across iPhone and Mac.

App 4: LongShot: Screenshot Stitch

App Store link

<https://apps.apple.com/us/app/longshot-screenshot-stitch/id6745420963>

Platform

iOS

Card title

LongShot

Full name

LongShot: Screenshot Stitch

Category

Capture

One-line description

Stitch multiple screenshots into one clean, shareable long image.

Feature tags

Long Screenshot
Screenshot Stitch
Fast Export
Share

CTA

View on the App Store

Homepage role

Good as a simple utility app. It should be visually easy to understand by showing several screenshots becoming one long image.

App 5: LifeLog: Countdown Journal

App Store link

<https://apps.apple.com/us/app/lifelogs-countdown-journal/id1610261169>

Platform

iOS

English name

LifeLog: Countdown Journal

Chinese name

X自主: 人生记录仪 - 倒计时日记

Category

Remember

One-line description

Record meaningful days, countdowns, memories, and private life moments.

Feature tags

Life Journal
Countdown
Important Days
Memories

CTA

View on the App Store

Homepage role

This app should be shown as the emotional product in the portfolio. It makes Yangming Apps feel more human, not only utility-focused.

8. Recommended App Display Order

Use this order on the homepage:

1. DeepCleanup: Photo Cleaner
2. FocusLock: App Blocker
3. DeepCleanup for Mac
4. LongShot: Screenshot Stitch
5. LifeLog: Countdown Journal

Reason:

1. DeepCleanup iOS is the clearest commercial product.
2. FocusLock has strong productivity value.
3. DeepCleanup Mac strengthens the cleanup product family.
4. LongShot is a simple utility with easy visual explanation.
5. LifeLog adds personal and emotional depth.

Alternative order if you want product family grouping:

1. DeepCleanup: Photo Cleaner
2. DeepCleanup for Mac
3. FocusLock: App Blocker
4. LongShot: Screenshot Stitch
5. LifeLog: Countdown Journal

My recommendation:

Use the second order if the page is more like a product studio.
Use the first order if the page is more conversion-driven.

For your homepage, use:

DeepCleanup iOS
DeepCleanup Mac
FocusLock
LongShot
LifeLog

9. Product Group Strip

Under the hero, add four simple chips:

Clean
Focus
Capture
Remember

Each chip can have a short explanation:

Clean — Photo and Mac storage cleanup
Focus — App blocking and time control
Capture — Long screenshot stitching
Remember — Countdown journal and life records

This creates a clear structure for five different apps.

10. Featured App Section

Featured title

Featured App

Featured app

DeepCleanup: Photo Cleaner

Headline

Free up iPhone storage in minutes.

Description

DeepCleanup helps you find duplicate photos, screenshots, and large videos, so you can clean your photo library faster and keep your iPhone organized.

Feature list

Find duplicate and similar photos
Clean screenshots and large videos
Preview before deleting
Designed for fast local cleanup

CTA

View on the App Store

Link:

<https://apps.apple.com/us/app/deepcleanup-photo-cleaner/id6777354576>

Visual

Use:

- iPhone mockup
- App icon
- Storage cleanup visual
- Before / after storage card

11. All Apps Grid

Use a 5-card grid.

Desktop:

3 cards in first row
2 cards in second row

Mobile:

1 card per row

Each card:

Icon
Category pill

App name
Short description
Feature tags
Platform badge
App Store button

Example card structure:

[Icon]

Clean
DeepCleanup: Photo Cleaner

Clean duplicate photos, screenshots, and large videos in minutes.

Duplicate Photos / Screenshots / Large Videos

iOS

[View on the App Store](#)

12. About Yangming Section

Section title

About Yangming

Short English bio

Yangming is an independent iOS and Mac developer with 10+ years of Apple-platform experience. He builds practical apps for cleanup, focus, screenshots, and personal journaling, combining native Apple development, product thinking, and App Store growth experience.

Stronger version

Yangming is a former Baidu senior engineer and independent Apple-platform developer with 10+ years of iOS experience. He builds practical iPhone and Mac apps across cleanup, productivity, screenshot tools, and life journaling, with hands-on experience in performance optimization, StoreKit monetization, analytics, and global App Store shipping.

Chinese support line

阳明是一名独立 iOS / macOS 开发者，长期专注 Apple 平台应用开发、产品设计、订阅变现和全球 App Store 发布。

Personal highlights

Display as four stats/cards:

10+ Years
iOS Development

5 Apps
iOS & macOS Products

Former Baidu Engineer
Large-scale App Experience

Indie Builder
Design, Code, Ship

Skills tags

Swift
SwiftUI
Objective-C
iOS
macOS
StoreKit
Photos Framework
AVFoundation
App Store Connect
ASO
Apple Ads
Product Design

13. Personal Portfolio Section

This section connects the app homepage with your personal site and resume.

Section title

Builder, Engineer, Indie Developer

Copy

I design, build, and ship native Apple-platform apps from idea to App Store release. My work focuses on practical tools that solve everyday problems: cleaning storage, reducing distractions, capturing information, and recording meaningful moments.

Three cards

Card 1

Native Apple Development

Swift, SwiftUI, Objective-C, iOS, macOS, StoreKit, Photos, AVFoundation.

Card 2

Product & Growth

ASO, App Store screenshots, subscription setup, Apple Ads, analytics, and review optimization.

Card 3

Indie Shipping

From idea, UI design, coding, testing, App Store submission, review fixes, to global release.

14. Privacy / Trust Section

Title

Built with privacy and simplicity in mind.

Copy

Yangming Apps are designed to be practical, lightweight, and respectful of user data. Whenever possible, features are built around local processing and clear user control.

Trust points

Native iOS and macOS experience
Simple and focused product design
Clear App Store download links
Privacy-first product thinking
Independent developer support

15. Contact Section

Title

17. SEO Plan

Page title

Yangming Apps — iOS and Mac Apps for Cleanup, Focus, Screenshots, and Journaling

Meta description

Explore independent iOS and Mac apps by Yangming, including DeepCleanup, FocusLock, LongShot, and LifeLog for photo cleanup, app blocking, screenshot stitching, Mac cleaning, and life journaling.

Keywords

Yangming Apps, iOS apps, Mac apps, photo cleaner, app blocker, long screenshot, screenshot stitch, countdown journal, life journal, DeepCleanup, FocusLock, LongShot, LifeLog

Open Graph title

Yangming Apps

Open Graph description

Five practical iOS and Mac apps for cleanup, focus, screenshots, and life journaling.

OG image plan

Create:

1200 × 630 px

Content:

Yangming Apps
Clean. Focus. Capture. Remember.
5 app icons

18. Visual Design Direction

Style

Use a clean Apple-like design:

White or off-white background
Large rounded cards
Soft shadows
High contrast typography
Minimal navigation
Generous spacing
App icons as primary visuals

Color system

Background: #F8FAFC
Text: #0F172A
Secondary text: #64748B
Border: #E2E8F0
Primary blue: #2563EB
Focus green: #10B981
Capture purple: #6366F1
Remember pink: #EC4899

Font stack

```
-apple-system, BlinkMacSystemFont, "SF Pro Display", "SF Pro Text", "Inter", system-ui, sans-serif
```

Card style

```
border-radius: 28px  
border: 1px solid rgba(15, 23, 42, 0.08)  
box-shadow: subtle  
padding: 28px
```

19. Mobile Layout Plan

Mobile is very important because App Store visitors often come from phone.

Mobile layout:

```
Header  
Hero title  
Hero subtitle  
CTA buttons  
5 app icons  
Featured DeepCleanup  
App card list  
About Yangming  
Skills tags  
Contact  
Footer
```

Mobile rules:

```
One app card per row  
Buttons full width  
Icons 72px to 88px  
Hero title 42px or smaller  
Avoid long paragraphs  
Keep App Store button visible
```

20. App Store Button Text

Use consistent button names:

For iOS:

View on the App Store

For macOS:

View on the Mac App Store

Do not use “Download Now” in the first version. “View on the App Store” feels safer and less aggressive.

21. Final Static Homepage Sections

Final version should include:

1. Header
2. Hero
3. Product category chips
4. Featured DeepCleanup section
5. All Apps grid
6. About Yangming
7. Skills / Experience cards
8. Privacy and trust section
9. Contact
10. Footer

22. First Version Launch Checklist

Required assets

- 5 app icons
- 1 Yangming avatar or portrait
- 1 OG image
- 5 App Store links
- Contact email
- GitHub link
- Resume link

Privacy policy text
Terms of use text

Required pages

index.html
style.css
privacy.html
terms.html

Required App links

FocusLock:
<https://apps.apple.com/us/app/focuslock-app-blocker/id6781309683>

DeepCleanup iOS:
<https://apps.apple.com/us/app/deepcleanup-photo-cleaner/id6777354576>

DeepCleanup Mac:
<https://apps.apple.com/us/app/deepcleanup/id6777946333?mt=12>

LongShot:
<https://apps.apple.com/us/app/longshot-screenshot-stitch/id6745420963>

LifeLog:
<https://apps.apple.com/us/app/lifelogs-countdown-journal/id1610261169>

23. Recommended First-Version Homepage Copy

Hero

Yangming Apps

Clean. Focus. Capture. Remember.

Independent iOS and Mac apps built by Yangming for photo cleanup, app blocking, screenshot stitching, Mac cleaning, and life journaling.

Featured

Featured App

DeepCleanup: Photo Cleaner

Free up iPhone storage in minutes.

Clean duplicate photos, screenshots, and large videos with a fast, simple photo cleaner designed for everyday iPhone users.

Apps section

Five practical apps. One independent builder.

Explore native iOS and macOS tools designed to solve real daily problems.

About

About Yangming

Yangming is an independent iOS and Mac developer with 10+ years of Apple-platform experience. He builds practical apps across cleanup, focus, screenshot tools, and personal journaling — from product idea and UI design to coding, App Store submission, monetization, and growth.

Contact

Contact Yangming

For support, feedback, or collaboration, feel free to reach out.

24. Development Priority

MVP 1

Only build:

```
index.html
style.css
assets/icons
```

No animations required.

MVP 2

Add:

privacy.html
terms.html
OG image
favicon
mobile polish

MVP 3

Add:

app detail pages
blog
SEO articles
Apple Ads landing pages
analytics

Future detail pages:

/apps/deepcleanup-photo-cleaner.html
/apps/deepcleanup-mac.html
/apps/focuslock.html
/apps/longshot.html
/apps/lifelogs.html

But first version should stay one page.

25. Best Final Direction

The homepage should not look like only an App list.

It should feel like:

A personal Apple-platform product studio homepage.

Best positioning:

Yangming Apps is the home of practical iOS and Mac apps built by Yangming — an independent developer focused on clean design, native performance, and everyday productivity.

This gives you three benefits:

1. Users can download your apps.
2. Apple reviewers and partners can see a serious developer brand.
3. You can later use the site for SEO, Apple Ads, X, Reddit, and portfolio credibility.
